Quality Review Score: N/A

About Our School

Students like our school because we have an energetic, hands-on, project-based approach to learning. Through the use of the latest technology students are able to build new knowledge and increase their academic ability. Students enjoy learning in our classrooms that have a studio feel with areas for collaboration, research, and independent study. Students also benefit from an advisory program that gives all students access to an advisor who helps them create, implement, and evaluate their action plans around both personal and academic goals. In our school, students have a voice and are full participants in their own learning under the guide of teachers and staff that meet their needs for belonging and respect. Our parents appreciate the level of support that their children receive through our programs, which are designed to meet the unique needs of each and every student. Parents recognize our commitment to preparing each student for high school, college, and beyond by giving them access to explore a range of businesses, organizations, colleges and universities. Our parents are an integral part of the success of our school and we encourage them to stay involved by participating in all aspects of our school community. All of our academic and programming decisions are rooted in research based on which experiences and instructional practices best prepare students for postsecondary education.
