Average for Similar Schools	94%	93%	95%	95%	32%	33%	7.7

Quality Review Score: Proficient (2012-2013)

About Our School

Our school is designed to encourage and foster the achievement of young women in math, science, and technology. Our challenging curriculum uses interdisciplinary, inquiry-based models of learning that actively engage all students in both math and science and their other academic classes. Through our partners, students have the opportunity to actively participate in a range of internships. Our partners also connect our students with role models and mentors that inspire them to challenge their self-perceptions and the stereotypes that currently exist for women in math and science. Additionally, our after school programs provide unique opportunities for students to explore their unique interests. Urban Assembly Institute (UAI) graduates will possess the skills needed to be successful in high school and college and to make the choices that positively impact their lives.
