### About Our School

Students enjoy being immersed in project-based learning activities that allow them to go on trips and develop strong computer literacy skills. They also love our Advisory Program and Student Government, which provide multiple opportunities for them to express their views and build school spirit through a variety of special events. Our school is a hub of daytime, after-school, and weekend activities that combine to create an intimate and child-centered environment that challenges students academically, while allowing them to explore their talents and interests. With fewer than 300 students enrolled each year, we are able to improve academic achievement for our students by personalizing the learning process for each child.
