<b>Average for Similar Schools</b>	85%	85%	85%	87%	16%	22%	7.4

**Quality Review Score:** Developing (2011-2012)

**About Our School**

The Academy for College Preparation and Career Exploration promotes academic excellence and guides students along a path to self-discovery that leads them to the successful completion of high school and college. Enabling students to select the career best suited for their talents and true potential, our personalized education plan begins in grade 6 with an emphasis on mastery of English language arts, mathematics, career exploration, and college readiness. We establish clear and high expectations for all students through an academically rigorous curriculum that links the academic subjects to real-life situations through numerous internships, mentor programs, and community service programs developed according to the career path selected by each student. A respectful and welcoming school environment known as the "circle of family and community" is a hallmark of our school. It is the result of the successful cooperation of faculty, staff, and students. Family and community also play a vitally important role in the education of our students. The active participation of parents and guardians is a critical component of our students' academic success and emotional well-being. Parents and guardians, as well as students, sign contracts clarifying expectations and responsibilities as active members of the school community. Special school features include small classes in all grades (75 students per grade), a multi-layered advisory program, academic tutoring, a college and career guidance center, peer tutoring, career exploration, and cultural and sporting activities and competitions.
