<b>Average for Similar Schools</b>	84%	83%	84%	85%	12%	11%	7.7

**Quality Review Score:** Developing (2012-2013)

**About Our School**

The Dr. Rose B. English School is dedicated to educating all children, regardless of their limitations or circumstances. We envision our school as a community of learners where all staff, students, and parents are actively engaged in the educational process. We are striving to raise the level of academic achievement to allow all students, regardless of their designation in school or society, to meet the required standards and become responsible, functioning adults in the future. We aspire to give our students the tools to make good decisions, function in a technologically advanced society, and work collaboratively with all people. By simultaneously and continuously developing the adults in our school community, we support a rigorous and diverse instructional program that rises to the standards put forth by the City and State. We consider ourselves a diverse and collaborative school community dedicated to achieving high standards of academic excellence for all of our students. Within a safe and orderly learning community, we provide our children with sufficient supplies, materials, and 21st century technological resources. We expose them to cultural experiences and school programs that broaden their understanding, create opportunities for learning, and expand options in their lives. Our ultimate goal is to develop our children, staff, and parents into life-long learners who are able to acquire, use, and share knowledge as power.
