## About Our School

Mott Hall Bridges Academy offers a culture of success by providing a small learning community that develops our scholars into critical thinkers who are productive and responsible individuals. We offer a balance between academics and social development by providing a number of youth development programs, a curriculum which incorporates project-based learning, and the requirement for all students to complete service learning projects upon graduation. Our families appreciate the attention we give to each scholar, providing the much-needed support for their academic and social/emotional progress. In addition, they enjoy monthly thematic celebrations and workshops, as well as our ongoing communication to ensure they are kept updated on school and scholar information. All of our classes are scheduled for 60 minutes daily and we incorporate reading intervention/enrichment within the school day to ensure support for all of our scholars.
